#### Order Work on Valley Well to Proceed Soon

Instructions have been issued by the United States reclamation service for resumption of the drilling of the experimental well in the Wallapai valley, it was learned today. Drilling operations were discontinued by the contractors, Boehm and Haggins of Globe, on June 1. At that time a depth of 1040 feet had been reached. Lack of funds for prosecution of the work was given as the reason for discontinuing the work, it is said. Professor Darton, to whom the matter was referred, reported that it was advisable to continue drilling and the reclamation service, it is said, has notified the contractors that they must proceed or their bond will be declared forfeited.

(From Friday's Dally Miner)
Again the climate of Kingman has been pronounced unhealthy for certain of the disciples of unrest, otherwise known as "Wobblies," or Industrial Werkers of the World.

When word was conveyed to Sheriff J. N. Cohenour late yesterday from Prescott that an I. W. W. agitator was at most the certain for his confederates, action was taken immediately to cope with the situation. The sheriff conferred with Capt. G. R. Franklin of the Home Guards and it was decided to meet No. 7, due at 1 o'clock this morning, to inform the aforementioned "Wobblie" and have a "heart-to-heart" talk with him. As a result, it was stated today that there was no danger of any untoward incident arising. In fact, the "Wobblie" said he would go to Mare Island and enlist in the navy. He had not gone late today, it was said, and he was under surveillance.

When the train pulled in, Sheriff Cohenour and deputies, fogether with Gaptin for the special control of the stuation for each of the same sheing the shown mand along claims, and each of bank was under surveillance.
